Re: Availability of non Work-Study Jobs

Due to the economic crisis that this country has been experiencing over the last year, university & college endowments have shrunk which has directly affected individual university & college budgets. Pitzer and the Claremont Colleges are not immune. Our office, as well as other offices across the Claremont Colleges, has seen a significant reduction in the amount of our operating budgets.

How does this budget reduction affect students? For students wanting to work on campus, who are not eligible for work-study, their opportunities are limited.

How will Career Services help me? Our office is aware as well as ready, willing, and able to help students' research part-time opportunities outside of the Claremont Colleges. We are encouraging students who need jobs to speak individually with a counselor in our office. Please contact Tammy our Administrative Assistant at careerservices@pitzer.edu or 909-621-8519 to schedule an appointment or stop by our office in Mead Hall during our walk-in counseling times which are daily from 3-4 p.m.
