Financial aid is awarded to domestic, international and undocumented students on the basis of financial need. ## How is Financial Need Determined?

Pitzer’s Office of Financial Aid uses the information supplied on the FAFSA, CSS Profile and tax documents to determine the amount your family can contribute toward the cost of your education. Financial aid eligibility is determined by many factors, and no two families’ circumstances are exactly the same. Some factors that determine the amount of aid you receive include income, savings and investments (including real estate), household size and the number of siblings attending an undergraduate college or university. Other factors and special circumstances may be considered on an appeal basis.

## Am I Eligible for Aid?

## What Types of Financial Aid are Available?

There are three types of financial aid offered at Pitzer College:

1. **Grant/scholarships:** gift aid that is based on financial need rather than merit
2. **Loans funds:** funds you borrow and must repay after leaving Pitzer
3. **Work-Study:** funds you earn by working on campus during the academic year

These financial aid funds come from Pitzer College and the state and federal governments. Most financial aid packages combine these different types of aid. Pitzer students graduate with less debt than the national average. The average student loan indebtedness of students who received financial aid for four years at Pitzer and graduated in May 2020 was approximately \$21,032.
