Pitzer Career Services Impact Overview 2019–20

Provida Futuri in Action

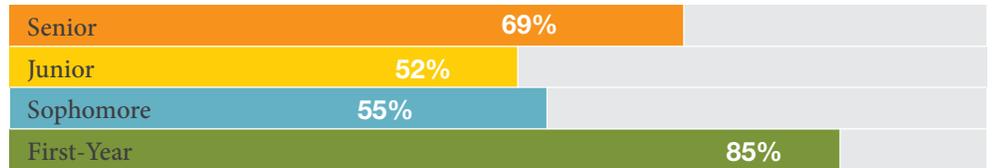

The Pitzer Career Services team supported student career exploration and planning with innovative new programs; through individual advising; and by connecting students to employers, alumni, family members and others. The team worked to help students and alumni adapt to the COVID-19 pandemic.

54

student participants

40

host sites

100%

of student participants would recommend the program to others

Leveraging the Pitzer Community

111

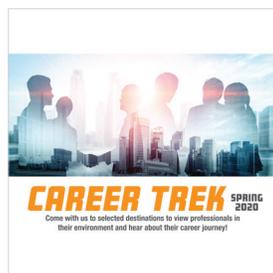

Active Pitzer alumni, parent/family volunteers

New Innovations

Internship Challenge: In partnership with Advancement, Career Services reached out to Pitzer alumni, parents, family members and others to offer summer internship experiences to students. Focused around the “50 Internships in 50 Days” Challenge, approximately 51 internship and job opportunities were offered by Pitzer community members.

Career Action Week: Offered during the first full week of spring classes, the successful week included skills-building dinner sessions facilitated by alumni, “Do’s and Donuts” discussions on career topics and expanded drop-in hours for students.

Future of Work Series: Focused on innovation, entrepreneurship and leadership, the dinner series provided an opportunity for students to meet with renowned leaders for a presentation, dinner and discussion.

Highlights

Industry Dinner Series: In its second year, the weekly dinner series connects students to alumni, parents and employers from a variety of industries in an informal setting.

Academic and Career Advising: Partnership with first-year and sophomore academic advisers led to the sharing of resources and classroom presentations in 18 of 21 First Year Seminars. A number of presentations were provided in Senior Seminar classes as well.

Internship Course: Offered for the second spring semester in partnership with Organizational Studies faculty, the expanded Internship Course supported Pitzer students in participating in high-quality, supervised internship experiences at local organizations during the academic year.

Other successful programs included our Fall Recruitment Career Intensive, Career Treks to various locations in the Los Angeles area and several skills-building and networking programs and events.

Responding to COVID-19

Pitzer Career Services adapted to the immediate changes brought on by the coronavirus pandemic and continues to provide guidance and support to students and alumni during this time. Examples include:

- Transitioned to full virtual availability to students, alumni and employers within less than a week of closing campus.
- Hosted a number of successful virtual events with employers and alumni presenters.
- Modified the Pitzer Internship Fund process to maximize student support and student flexibility.
- Implemented a new communication strategy to limit email traffic and highlight timely and appropriate career resources. This included a weekly newsletter and increased social media presence.
- Advised students with curated career strategies and resources that are specific to the time of the pandemic: www.pitzer.edu/career-services/students/career-development-strategies-and-resources-in-a-time-of-covid-19/
- Conducted individual outreach to each senior to check on their career progress and ensure that they are aware of the career support available to them presently and after graduation.
