Learn More About Academic Programs

www.pitzer.edu/academics/programs

“I’m preparing them for a leadership position, whatever careers they pursue, by virtue of coming to Pitzer College, they will be in a leadership position. They’re going to apply those degrees in a way that’s going to fundamentally change the world for the best.”

Adrian Pantoja, Ph.D.
Professor in Political Studies
and Chicano Studies

PITZER COLLEGE
A MEMBER OF THE CLAREMONT COLLEGES

Pitzer’s outdoor classrooms, like this one at the **Robert Redford Conservancy for Southern California Sustainability** *(page 7), are favorite places for students and faculty to exchange ideas.*

Academic Flexibility

Pitzer faculty serve as your partner in intellectual exploration and inquiry, encouraging you to pursue passions and interests. They invest in you as academic and senior thesis advisers, and as research mentors.

Interdisciplinary Courses

You get to know your professors well in small, seminar-style classes—which are discussion-based, student-led, collaborative, highly project based, and routinely include community-based research projects and engagement.

Faculty from across disciplines come together to explore new ways of thinking, creating opportunities and spaces for students to pursue critical thinking and make inter-disciplinary connections.

A few recent courses include:

- Forms of the Struggle: U.S. Movement Literatures After 1929
- Seminar on Cognition & the Arts
- Neuroeconomic

First-year Seminar

At Pitzer, you will take a writing intensive, interdisciplinary seminar on a topic of interest. The professor teaching the seminar serves as your academic adviser until you declare a major. A sample of recent seminar topics includes:

- Practicing Science: Chasing Knowledge with Imperfect Tools (and Imperfect Minds)
- Environmental Documentaries: Social and Environmental Justice
- The Criminalization of Immigration

“At Pitzer you hear, ‘yes, if this is a passion, if this is an interest, go for it. Try it. See how it will work.’ ”

Phil Zuckerman, Ph.D.
Professor of Secular Studies and Sociology

Academic advising is considered an integral function of the teaching role of faculty members. When you start at Pitzer College, you’ll be assigned a faculty adviser.

Interdisciplinary Learning

The future needs thinkers who can connect ideas.

Self-designed Major

Around five percent of Pitzer students chart their own path with a self-designed major aligned with their interest.

A few recent examples include:

- Indigenous Public Health
- Climate Toxicology
- Critical Global Geography

High-Level Research

Undergraduate students connect to scholarly research opportunities at Pitzer and across the Claremont Colleges. You could find yourself:

- **Co-authoring papers and chapters** in top scholarly journals with faculty across disciplines.
- **Conducting agrivoltaics research** at the Robert Redford Conservancy, exploring the integration of regenerative farming and solar energy.
- **Developing business solutions for Amgen** through the Team Master's Project—a partnership with Keck Graduate Institute pairing students with corporate biotech sponsors.
- **Conducting independent marine science research** with a faculty adviser, monitoring coral reef health in the Philippines.
- **Working on the Distributed Pharmaceutical Analysis Project** with Dr. Anna Wenzel, in conjunction with The University of Notre Dame, Doctors Without Borders, and Chemists Without Borders.

Social Responsibility

Learning becomes more meaningful when you put it into practice.

"As an institution of higher education, it's our responsibility to know our neighbors, to be socially responsible civic actors, and to work together in reciprocity with our local community not only on major problems, but with the beautiful assets and knowledge that exist where we are." —*CASA Pitzer's Director* **Tessa Hicks Peterson, Ph.D.**

> "The CASA Pitzer program taught me a new way to engage in research with community partners that felt really ethical and moral."
>
> **Stryder**
> *Majors:* Spanish and Organizational Studies

Core Values in Action

All Pitzer students fulfill a Social Responsibility Praxis (SRX) graduation requirement, translating classroom teachings into actionable practice in the community. Whether earned through a SRX course, study abroad opportunity, or one of our first-in-the-nation programs, you are immersed in advocacy-focused learning.

Community Engagement Center

Pitzer's nationally-recognized Community Engagement Center (CEC) interweaves students, professors, and local organizations to create on- and off-campus, community-based research and experiential education.

The work of the Community Engagement Center (CEC) is organized under 5 Pillars of Engagement:

- Educational Access
- The People's Pitzer
- Public Health
- Research & Technology
- Social Media, Arts, & Communications

Learn More About CEC

www.pitzer.edu/cec

CASA Pitzer

Connect with regional non-profits to research issues of regional equity and justice pertaining to incarceration, immigration, education, environment, labor, art, culture, and health through the Critical Action & Social Advocacy (CASA) Pitzer academic program.

Inside-Out Program

Learning changes when every voice is part of the conversation. In the Inside-Out program, campus-based ("outside") students study alongside incarcerated peers ("inside") in a shared classroom where dialogue, critical thinking, and mutual respect deepen understanding of justice, leadership, and the human experience.

Green Living

Building sustainable community is one reason most Pitzer students choose to live on campus all four years.

- The Gold and Platinum LEED certified residence halls include **solar panels, green roofs, living walls**, gray water systems, and water-efficient fixtures.
- Pitzer Dining serves **organic, locally sourced food** and **maintains a highly effective compost program**.
- Campus is adorned with beautiful **native, drought-tolerant landscape**.
- **Your workout** at the Gold Student Health and Wellness Center gym does its part by powering the facility.
- **Eco-Reps** collaborate across campus to facilitate projects like ReRoom, community composting, PZ Plant Sitter Program, and the 5C Carpool Buddies.
- Pitzer was awarded a **Gold STARS Rating** from the Association for the Advancement of Sustainability in Higher Education.
- A member of the **Forward Food Collaborative**, Pitzer Dining reduces green house emissions by committing to plant-based dining options.

75% Of Campus Landscaped in Native and Drought-Tolerant Plants

Eco-Academics

Think beyond today.

At Pitzer, environmental sustainability isn't confined to one major or one field of study. It's a core value that encourages students across disciplines to explore how people, communities, and ecosystems are connected, and how today's choices shape tomorrow's world.

Learn in Living Laboratories

Some of Pitzer's most inspiring classrooms don't have four walls.

- **Robert Redford Conservancy for Southern California Sustainability**

  Located on 12 acres of revitalized native habitat, the Redford Conservancy serves as a hub for research, creativity, and collaboration. Students investigate environmental challenges, conduct research, and explore innovative solutions through courses ranging from Environmental Law to Sustainable Sculpture.

- **Firestone Center for Restoration Ecology**

  Pitzer's 150-acre rainforest preserve and field station in Costa Rica supports ecological research, community-engaged learning, and immersive study abroad experiences that connect students with one of the world's most biodiverse environments.

- **Outback Preserve**

  Adjacent the residence halls, this three-acre living laboratory invites students to study native ecosystems, ecological restoration, and the intersections of science, art, and environmental stewardship.

"From climate justice to public policy and regenerative agriculture, we're creating forward- and outward-facing projects that involve our students in hands-on education they can take with them."

Susan Phillips, Ph.D.
Professor of Environmental Analysis;
Director of the Robert Redford Conservancy

#3
for "Green Matters: Everyone Cares About Conservation"
—Princeton Review, The Best 390 Colleges: 2025 Edition

Study sustainability through the lens of science and justice, while you practice it as a way of life.

Environmental Sustainability

Intercultural Understanding

Every new perspective expands your own. Learning happens through conversations, communities, and experiences that broaden how you see the world.

Expand Your Perspective

Some of the most meaningful learning begins when you step into a new community.

Study Abroad

Whether you're living with a host family, studying at a partner university, conducting field research, completing an internship, or pursuing an international fellowship, global experiences help you see the world, and your place in it, from new perspectives.

Students can study abroad up to three times through Pitzer's own immersive programs or more than 55 approved programs around the world. Wherever you go, your financial aid travels with you, making global learning more accessible for every student.

Pitzer's direct-run programs combine rigorous academics with language immersion, homestays, field excursions, and independent projects rooted in community engagement, research, or internships.

Learn More About Study Abroad

Student-Centered Spaces

Make campus your own.

At Pitzer, students do more than use campus spaces—they help shape what happens in them. Student-led cafés, gardens, workshops, affinity spaces, and community programs create places to gather, exchange ideas, build skills, and turn shared interests into campus traditions.

- **The Grove House:** Part café, part gathering place, part jazz club, and part community hub, the Grove House hosts open mic nights, art fairs, conversations, mutual-aid initiatives, and student-created events throughout the week.
- **Green Bike Program:** Students can borrow a bike for the semester, learn basic maintenance, attend workshops, or help keep the 5Cs moving through affordable student-run, repair services.
- **Student Garden:** Students grow food, learn about composting, join hands-on gardening sessions, and contribute produce to the Grove House Café—creating a cycle that connects food, community, and sustainability.
- **Affinity Spaces:** Student-led affinity organizations create spaces for connection, support, celebration, and campus-wide learning. Their programs invite the broader community into cultural events, conversations, performances, and shared experiences.

Learn More About Student Life & Affinity Groups

www.pitzer.edu/student-life

Student Engagement

Contribute to all aspects of campus governance, decision-making, and community building. Your voice is valued and heard.

Student Governance

Pitzer's unique shared-governance model means student representatives play an active role in making real decisions about Pitzer's future, and about the issues that matter most to them.

Recent student-led action has resulted in:

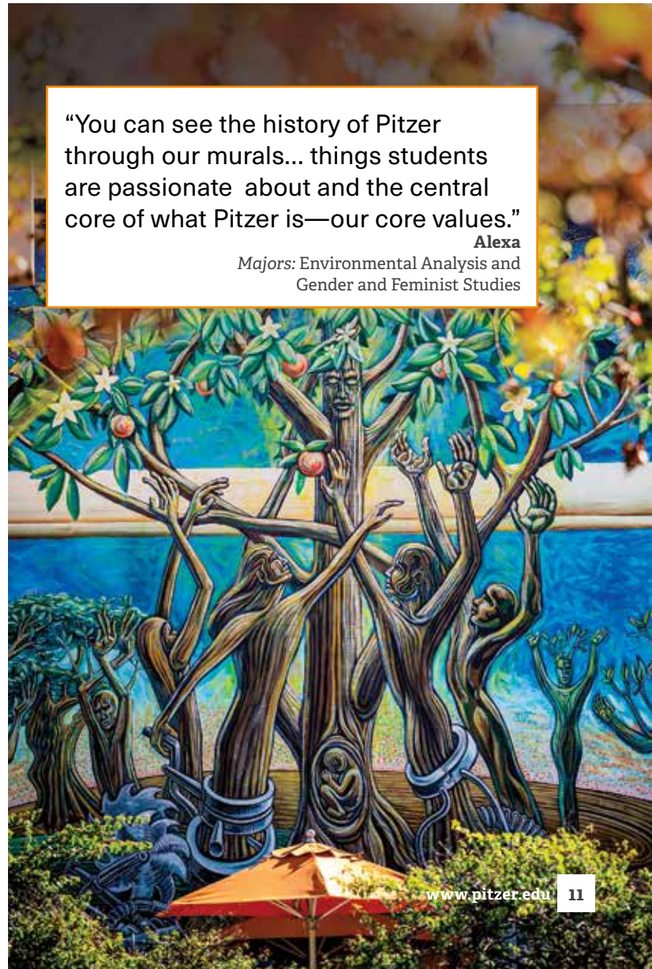

- Divesting Pitzer's endowment of fossil fuels.
- Creating a fund to maintain affinity spaces.
- Banning the sale of plastic water bottles on campus.
- Offering gender-neutral restrooms and residence halls.
- Pitzer's transition to 100% clean electricity.

Pitzer students are also at the table when deciding academic and administrative appointments, awarding faculty tenure, and designing curriculum and student affairs policy.

Student-Created Public Art

The collection of **100+ student-created murals** grows yearly. Have an idea for a mural? Send your proposal to the Campus Aesthetics Committee, half of whom are students, which selects and funds installations.

Students come to the **Free Wall**, an iconic, ever-changing concrete canvas in the middle of campus, to express themselves freely. It is a safe space for you to share personal commentary on any topic through artistic expression.

"You can see the history of Pitzer through our murals... things students are passionate about and the central core of what Pitzer is—our core values."

Alexa
Majors: Environmental Analysis and Gender and Feminist Studies

On Campus

Social Spaces

- **The Mounds:** The place to study, relax, and enjoy a mountain view.
- **Swimming pool:** Surrounded by native plant gardens and residence halls.
- **Pit-Stop Café:** The go-to spot for great organic coffee and matcha.
- **Shakedown Café:** Famous for its Sage Hen Fries and other seasonal, locally sourced options.

Events and Traditions

- **Snackie Snack:** Enjoy a special treat and share community at 9 p.m. on Tuesdays.
- **Music and art:** Mark your calendar for Rockabilly, Black Flea [Market], Kohoutek, and openings at the art gallery each semester.
- **Pitzer Traditions:** Like Rivalry weekend, Citrus Fest, and Harvest Fest at the Grove House and Student Garden or Storyteller's Festival, compliments of the CEC and Writing Center.

Resources & Free Fun

- **Pitzer Outdoor Adventure Club:** Provides funding for outdoor excursions proposed by students.
- **The Gear Closet:** Anything needed for a camping trip or a day at the beach is available to check out for free.
- **Mass Transit:** Travel easily to downtown Los Angeles, the beach, or the grocery store on convenient buses and trains walkable to campus.

Follow your interests.
Find your people.

Whether you're producing films, restoring native habitat, organizing a campus event, publishing a newspaper, leading an outdoor adventure, or launching a new club, you'll find opportunities to shape the community around you and make lifelong friends along the way.

"I'm a big foodie so I love to go to L.A. and Orange County to explore different food options, restaurants, and coffee shops. I also really like the beach—Venice Beach is always a classic."

Carter
Major: Environmental Science and Data Science

Campus Life

Students take their studies and their fun seriously. Whether on campus or off, you build community enjoying the best of Southern California.

Off Campus

ORIENTATION ADVENTURE

During this off-campus component of Pitzer's New Student Orientation program, students explore Los Angeles and Southern California through camping, beach activities, museum visits, and more.

CLAREMONT'S HISTORIC VILLAGE: A 15-Minute Walk

Enjoy coffee houses, bakeries, eateries, quaint shops, and a Sunday morning farmers and artisans market.

LOS ANGELES: An Hour by Train

Concerts. Museums. Entertainment. Food. Neighborhoods. Trend-setting Los Angeles is your limitless playground of fun and adventure.

SOUTHERN CALIFORNIA: Some Student Favorites

- **Mount Baldy /12 miles:** Best place to watch the sunset
- **Disneyland / 28 miles:** The original magic kingdom
- **Venice Beach /50 miles:** Classic California beach and boardwalk

Graduates attend top graduate programs and achieve significant professional success. They also do good work and live with purpose. You can, too.

Life after Pitzer

98%

of graduates are engaged in professional, academic, or service work within 6 months of graduating*

- **53% Employment** (full- and part-time)
- **25% Grad School** (attending or planning to)
- **20% Fellowships, Internships, & Service Programs**

* **Class of 2024**: *Based on 74.4% knowledge rate, which exceeds national standard.*

Career Services

As a graduate, you are invited to use the Career Services Office throughout your professional life.

Internships

Whether looking for a domestic or international experience, help is available for you to find the right placement from start to finish. Funding for non-paid summer opportunities is offered through the Pitzer Internship Fund. Some recent internship placements include:

- **Centre for Rights Education Awareness in Kenya**, working in economic empowerment for women,
- **Accolade, a healthcare advocacy company in Seattle,** working in data science,
- the **National Weather Service,** researching innovation in forecasting communication,
- and **Blackbird Studio in Nashville,** learning the ins-and-outs of music production.

Career Exploration

Individualized career advising sessions and weekly workshops on topics like networking, interviewing, and resume writing are popular with students. Some are:

- Winter Break **job shadowing**
- The **graduate/professional school series**
- **Alumni networking** through campus visits and the Pitzer Professional Directory
- **Pitzer Test Prep Assistance Fund**
- Hundreds of **employer visits** and **career fairs** across the 5Cs

Facts & Figures

Pitzer is a nationally top-ranked, undergraduate liberal arts and sciences college in Southern California with an enduring social justice ethos.

Pitzer's five core values are woven throughout the unique teaching, learning, living, and research experience we offer. >>>>>

Mission Statement

Pitzer College produces engaged, socially responsible citizens of the world through an academically rigorous, interdisciplinary liberal arts education emphasizing social justice, intercultural understanding, and environmental sensitivity. The meaningful participation of students, faculty, and staff in college governance and academic program design is a Pitzer core value. Our community thrives within the mutually supportive framework of **The Claremont Colleges**, five undergraduate colleges and two graduate institutions that provide an unsurpassed breadth of academic, athletic, and social opportunities.
