

SELF-DESIGNED MAJOR DECLARATION FORM

Name _____ ID# _____ Expected Grad Date _____
Contact Phone Number _____ Contact E-mail _____
Major Field(s) _____ Self-Designed Major Title _____

Choose one:

- This is a single major (i.e. replace my current major with this one).
- This is part of a double major (NOTE: a Major Declaration form will need to be submitted for a second major if you have not already done so).

ATTACH SELF-DESIGNED MAJOR PROPOSAL TO THIS FORM.

PLEASE LIST COURSE NUMBER AND TITLE. CHECK BOX NEXT TO COURSES ALREADY COMPLETED.

A) Written Expression - Only one required

First-Year Seminar – Course # and Title:
1. _____
OR IF NO FYS

Intercultural Understanding Local – Course # and Title:
1. _____

Writing Intensive Course - Course # and Title:
1. _____

Social Justice Theory – Course # and Title:
1. _____

B) Breadth of Knowledge

(All courses within this section B must be different)

a) Humanities/Fine Arts

- 1. _____
- 2. _____

Social Responsibility Praxis – Course # and Title:
1. _____

D) MAJOR COURSES - List Course Number & Title

Course #	Course Title	
1)	_____	<input type="checkbox"/>
2)	_____	<input type="checkbox"/>
3)	_____	<input type="checkbox"/>
4)	_____	<input type="checkbox"/>
5)	_____	<input type="checkbox"/>
6)	_____	<input type="checkbox"/>
7)	_____	<input type="checkbox"/>
8)	_____	<input type="checkbox"/>
9)	_____	<input type="checkbox"/>
10)	_____	<input type="checkbox"/>
11)	_____	<input type="checkbox"/>
12)	_____	<input type="checkbox"/>
CAPSTONE		<input type="checkbox"/>

b) Social/Behavioral Science

- 1. _____
- 2. _____

c) Natural Science

- 1. _____

d) Quantitative Reasoning

- 1. _____

C) Educational Objectives

(All four courses within this section must be different)

Intercultural Understanding Global – Course # and Title:

- 1. _____

****ADVISORS:** By signing this form you confirm you are part of the appropriate field group and that you will act as the student’s major advisor.
****STUDENTS:** Special majors require at least two advisors, one of which must be a Pitzer Advisor.

Guidelines for Self-Designed Majors

Students may wish to pursue a major that does not fit an established major. A self-designed major proposal should be developed with and must be approved by a minimum of two faculty advisors in appropriate fields. When particular fields are highly represented in the self-designed major, the advisor(s) must come from those fields. Students may, of course, have additional advisors that do not come from these fields. Students must have at least one Pitzer advisor, so if both self-designed major advisors are from off-campus, the student must have a third Pitzer advisor.

Students must attend the information meeting on self-designed majors before they are allowed to submit this proposal. Proposals should be submitted to the Registrar's Office to be forwarded to the Curriculum Committee for their review, comment and approval. The criteria detailed below will be used by the Curriculum Committee in evaluating proposals.

The Curriculum Committee will not accept Self-Designed Major proposals during the senior year, unless the major proposal could be accepted without revision. We thus leave open the possibility that students will return from study abroad (or other) experiences their senior year that have served to synthesize and clarify their academic trajectories. Students will be notified of Curriculum Committee decisions via Pitzer e-mail. Self-Designed Major forms are available in the Registrar's Office and contain two components:

i. An explanation for the Self-Designed Major including:

Title: The title must correspond with the course list and rationale for the major.

Purpose: Proposals must state the goals to be achieved through the implementation of the desired major and explain why these goals cannot be met with existing majors.

Student Learning Outcomes: Proposals must clearly state the expected knowledge, skills, attitudes, competencies, and habits of mind that student will acquire through the completion of the Self-Designed Major. These should be demonstrated by the capstone experience.

Coherence: The proposed courses must demonstrate a cohesive, feasible and organized program of study and explain how the courses work together to achieve the desired goals. There will be no more than four introductory courses, and at least 6 upper level courses in a Self-Designed Major.

Mastery: The proposed major must exhibit sufficient depth and rigor, including a substantial number of advanced courses. There must be some theory and/or research methods courses in the Self-Designed Major.

Capstone: The proposal must discuss plans for a synthesizing paper, project, seminar or thesis. The course list should include a full-credit independent study devoted to completion of this thesis or project, or explain how an existing advanced seminar would serve this purpose. The capstone experience should integrate the knowledge gained through the self-designed major.

(continued on reverse)

ii. Course List:

The Self-Designed Major form should list both educational objectives and a course list, including a minimum of 10 courses for the proposed major. The course list should match the explanation for the Self-Designed Major and should be consistent with curricular capabilities of The Claremont Colleges.

Approval of student's statement by the advisors

When faculty members sign the Self-Designed Major Declaration form, they agree to be an advisor for the major. They agree to advise the entire Self-Designed Major, not just a part of the major. They confirm that they are in the field(s) represented by the Self-Designed Major. When advisors go on sabbatical or leave, they agree to continue advising their Self-Designed Major advisees or to find an appropriate faculty member to do the advising for them.

The advisors will also write a supporting letter to accompany the proposal, a letter in which they defend the quality and integrity of the Self-Designed Major to the Curriculum Committee.

Suggested guidelines for faculty writing letters of recommendation for self-designed majors:

1. A thorough explanation of why the proposed set of courses provides for a coherent education in the field of study;
2. A thorough explanation of why the field of study cannot be completed within an existing (5C) major;
3. A sense that the faculty member and student have thoroughly discussed the self-designed major, and the plan for completing it; and
4. An articulation by the faculty members of why they are appropriate advisors for the major.
