For the Critical Studies track, you must have taken at least two intermediate/advanced courses in the area of your chosen topic, either in media theory and/or media history. You may petition to substitute one of these with courses outside of these designations (e.g. MS production, electives, courses from other fields).

Please write a short description (50-100 words) about the project/paper you plan to complete in Senior Seminar. This is a preliminary proposal designed to get you to start thinking about your capstone project/paper; it is non-binding, and we expect changes as you develop your ideas.
