6. Please write any comments you have on any technological advances being made at Pitzer. Please tell us what you would like to see!

Text Response

Better wifi all around campus.

The more duties that can be put online the better. Specifically if it reduces time needed to complete tasks for students.

Wifi in the Grove House

Cashnet password has to be reset every single time, making my mom grumpy :(

Less flaky internet would be great, but you guys are doing well :)

The wifi is good and fast, but I would never be opposed to it improving more!

:)

More Technology=Easier Circumstances for Students

Root access to every virtual memory location on all of Pitzer's servers
