Pitzer College
New Student Orientation

Hello future mentees!

Welcome to Pitzer! My name's Reed, and I'll be your mentor for the next semester. I'm a junior, a physics major, and a board game nerd among other things. I'll be providing all kinds of helpful services including the following: helping lead your orientation trip, giving you a crash course on which dining halls are the best, advising you in the middle of the night when you realize how much you miss home, showing you how to get a tutor once you realize that taking calculus 3 at CMC was a questionable choice, and much more.

I'm sure sure you'll have a good time figuring out the social life and academics at Pitzer, I'm just here for backup and support, along with the rest of the ResLife staff. I'll be looking forward to meeting all of you on move in day, and getting to know you all on our OA trip. I'm sure you already have a packing list, but I'd like to make an addendum- leave your fear of college behind, and bring your insatiable thirst for adventure (picture me telling you that while wearing bright-orange Pitzer sunglasses).

See you soon!

-Reed

PS: Sorry if you're getting this late, I was super disorganized this summer, and messed up on getting this in to the appropriate people at the appropriate time :)
