

# HOUSING SELECTION

Dear Pitzer Students,

Thank you for participating in our Returning Student Housing Selection Process thus far. We look forward to welcoming you back to campus and once again being a part of our vibrant residential community. As we continue to plan for your return, **we have decided to pause the Returning Student Housing Selection Process** so that we can preserve as much flexibility and responsiveness to student needs as we can during these still rapidly changing times. We thank you for your understanding as we continue to prioritize your safety, well-being, and this very special community that means so much to all of us.

All current work in the Returning Student Housing Selection Process will be saved and the process will pick-up where we left off once we have more clarity for fall semester. For example,

- Off Campus: Those approved for off-campus will remain approved.
- Pre-placed in a room: Those placed in rooms for pre-placement are still assigned to those spaces.
- Fall Study Abroad: All fall study abroad students are now welcome to enter into Returning Student Housing Selection and catch up to where others are at in the process. We have placed your current applications back in “Draft” so please revisit your Residence homepage to update your application with your desired fall housing plans.
- Returning Student Housing Selection: Application data and “Phase 2: Roommate Groups and Room Search” information will remain. We will not make any adjustments to applications or placements until we have these next steps clarified. We will leave our Residence software’s “Roommate Group and Room Search” process open for now, but we will not move forward with assigning individual selection times. When we announce the new dates for “Phase 3: Selection”, we will provide individual selection times.

We appreciate your patience during this process and we thank you for your trust as we look at all available next steps. We miss you all and we very much look forward to having our residential students back on-campus in the near future.

Our best,

~Kirsten
