Dear Student,

You should've recently received an email from IT with your Pitzer login credentials. You'll need that info to access the website and info below. If you haven't received that email, you can contact help@pitzer.edu.

New Student Orientation Online Resources & Pre-Arrival Tasks

Your New Student Orientation includes various components, some will be available virtually before you arrive on campus, and most others will be in-person so you can get to know campus and meet other students.

All pre-arrival tasks and info will be detailed on Sakai, Pitzer's learning management system which will eventually house all of your course-specific info, assignments, etc. You can access Sakai with the info below.
